International Congress on  
**AI and Machine Learning**  
August 02-03, 2021  
Deploying the knowledge on AI and Robotics on the edge

## ABOUT CONFERENCE

On behalf of International Congress on AI and Machine Learning, we are delighted to welcome you to join the Congress scheduled on **August 02-03, 2021** as a **webinar** which is an exceptional gathering for the worldwide prominent scholastics in the field of IT Industries where Directors, Professors, Research scholars, Postdocs, Academic Staff are about to share their research work and acquiesce new emerging technological trends in the conference areas.

Artificial Intelligence 2021 is an International platform to adverse and study about the latest technology, innovations, applications, and intense research to Share complete Knowledge. The conference contains significant international experts, professor, specialists, research scholars and Student Delegates and Exhibitors form all over the world to our congress with the theme "**Deploying the knowledge on AI and robotics on the edge**". Conference will be featuring oral presentations, poster presentations, keynote talks, workshops and many more.

The conference will focus on Natural language processing, deep learning, latest innovations and applications, AI and ML learning algorithms, Types of AI and ML, AI and ML approaches, Robotics, Machine Learning Techniques, Neural Networks, Machine Learning Tools, Computer Vision uses Artificial Intelligence, Expert system, Reinforcement Learning topics related to almost all fields of AI Quantum Computing, Health care, Autonomous vehicles.

## Scope and Importance

Artificial Intelligence 2021 aims to order driving scholastic researchers, specialists and exploration researchers to trade and share their encounters and examination results on all parts of Computer Science and Technology. It additionally presents a top-quality interdisciplinary platform for researchers, practitioners and educators to give and speak the latest innovations, trends, and issues additionally as realistic demanding situations encountered and solutions adopted within the fields of Computer Science and Technology.

## Who can Attend?

Artificial Intelligence 2021 brings together individuals who have an interest in different fields of Computer Science and Technology, Professors, Researchers, experts in IT Field, IT Industries, Training Institutes and Students. It is a forum to explore problems with mutual concern also as exchange knowledge, share evidence, ideas, and generate solutions.

## Why to Attend?

Artificial Intelligence 2021 is an opportunity to meet others within specialty to network and learn the latest Technology and Applications. It is an opportunity to get knowledge from experience professors, researchers and scientists. Attending conferences will be helpful to expand your knowledge and find solutions to problems and to present your ideas and research work to others.
