

AVAILABILITY OF DATA AND MATERIALS

Lifelines biobanks provided data through a secure server on a fee basis. It does not allow downloads of patient-sensitive data for sharing in public. Lifelines biobanks will provide access to the data for reviewers on request.

FUNDING

This research received no grants from funding agencies in the public, commercial, or not-for-profit sectors.

AUTHORS' CONTRIBUTIONS

The authors confirm their contributions to the paper as follows:

WV: Study concept, design, data sourcing.

AS: Analysis, interpretation of results and manuscript preparation.

WV: Review of findings and approval of the final draft.

ACKNOWLEDGEMENTS

We thank Lifelines Biobank and its staff members for data-related services and support.
