

Past Conference Report on World Conference on Diabetes, Obesity and Heart

Lynn Romejko Jacobs

Texas women's university, USA

The World Conference on Diabetes, Obesity and Heart conference was held on August 1st 2020 as a Webinar due to the ongoing COVID-19 pandemic.

We represent our Gratitude and sincere thanks to our wonderful Speakers, Delegates, Students, and Associations for making Diabetes Congress 2020 Conference a grand Success. We would also like to thank our Organizing committee members for making sure there has been left an Inch of mistakes left in organizing a Conference and making sure that the webinar doesn't affect the Conference in any possible way.

Diabetes Congress 2020 has taken privilege of Honoring Keynote Speakers, Whose talk made this meeting progress in an interesting manner.

The Panel discussion session made an intellectual knowledge sharing experience as this made the delegates to raise their questions towards the speakers. The Speakers were keen enough to answer the queries and raised the standards of the webinar. We would like to give a special thanks all the Delegates who attended the webinar and made sure they don't miss a chance to make use of the webinar.

Our Keynote Speakers:

Archil Khomassuridze | Ivane Javakhishvili Tbilisi State University

| Georgia Gundu H.R. Rao | Thrombosis Research Lillehei Heart Institute

| USA Our Speakers:

Raffaele Pilla | St. John of God Hospital | Italy

Kibir Temesgen | Wollo university | Ethiopia

Philip Apraku Tawiah | University of Health and Allied Sciences | West Africa

Nwawuba Stanley Udogadi | University of Ibadan | Nigeria

Livana PH | Kendal College of Health Sciences | Indonesia

Lutvi Abdullah | National University of Singapore & Universitas GadjahMada | Indonesia

The Webinar ended successfully with a final words from our OCM members which took the Conference to a highly informative manner.
